I am conceptual. I have an investigative mind, intrigued by questions like, "Which came first, the chicken or the egg?" I am an independent thinker, a natural nonconformist, and live life by my own standards. I like to do things that require vision, problem solving, strategy, ingenuity, design, and change. Once I have perfected an idea, I prefer to move on to a new challenge. I value knowledge, intelligence, insight, and justice. I enjoy relationships with shared interest. I prefer to let my head rule my heart. I am cool, calm, and collected. I do not express my emotions easily.
Transferable Skills
What you spend your time doing is more important than a job title. The transferable skills listed below can be used in many different occupations and those in your first color and sometimes your second color are usually the most enjoyable. Circle the top 5 skills you most prefer to use.

Green Skills

Analyzing — separating or distinguishing the component parts of something so as to discover its true nature or inner relationships
